				Description Terry Borchardt from Borchardt Electric, LLC license #926161 will be doing the electrical work at the lower unit bathroom located at 618 Fulton Street, Wausau.			

He's going to use the existing wire coming into the bathroom from the lower unit electrical panel. He already checked the wiring that's coming into the bathroom and it is #12 romex wire that is already there. That wiring will all be fed from a single 20 amp breaker. He's going to feed off of the existing wire to power the existing vent fan, (1) LED disc light and a vanity light.

There will also be a GFCI protected outlet next to the vanity. This GFCI outlet was already in the bathroom and we will reuse the outlet when it comes to the finish out.
