RE: Amending Section 5.52.090 – Records Required and Section 5.52.120 – Receipt Required

Purpose: Amend Section 5.52.090 – Records Required and Section 5.52.120 - Receipt Required relative to pawn shops.

Background: I was contacted by an alder regarding a constituent who was not able to pawn an item using his federally issued tribal ID. After review of the Wausau Municipal Code and the state statutes, it was determined that the ordinance did not mirror the statutes to allow for the use of a federally issued tribal ID as an acceptable form of identification.

Recommendation

I am recommending a revision to the code to mirror the state statutes relative to the use of proper identifications as an acceptable form of identification.

Re: Community Outreach Update

Unhoused Data

The following graph shows the number of unduplicated¹ persons housed by each organization in the previous month.

Unhoused Data Summary

In April, data suggests there were approximately 217 unhoused individuals in Wausau. As indicated in the footnote, 217 is not the true number of unhoused. As of today, organizations do not cross-reference names when coming up with their unduplicated count. This means an unhoused individual may be part of more than one organization's count, thereby inflating the true number of unhoused. An example is provided in the footnote. This number also does not include those individuals who are considered "couch surfing".

¹ The numbers reflected do not eliminate duplicates across organizations. For example, a person who stays at Catholic Charities and the Salvation Army in the same month will count as 1 person for each organization.

In the graph above, 83 percent of the unhoused sought or received shelter in the month of April, 17 percent of the unhoused were living outside, or in places not meant for human habitation.

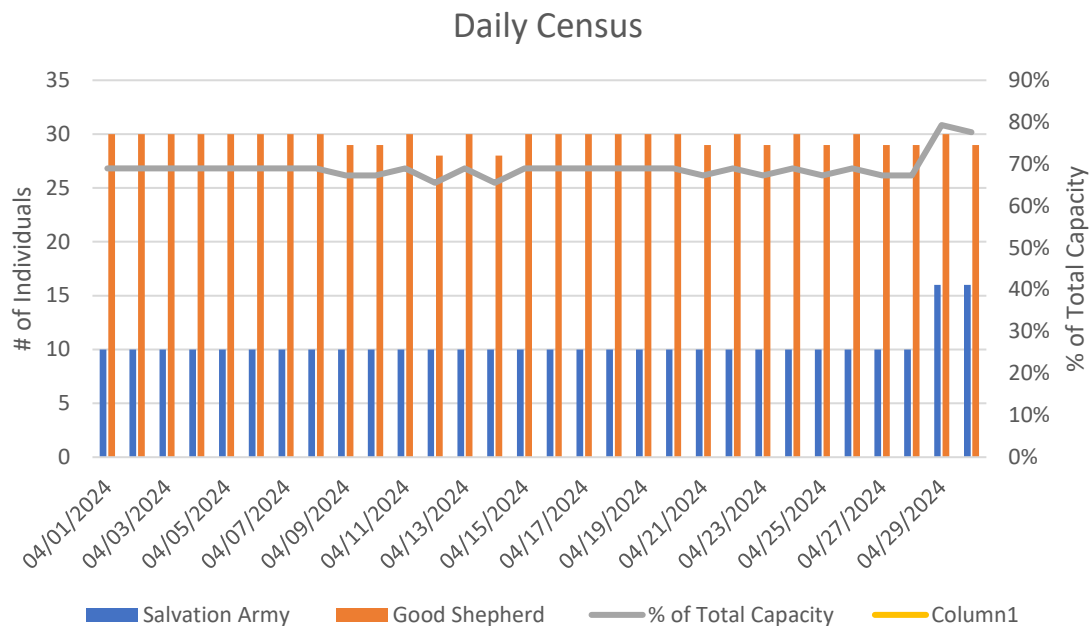

The Women’s Community data includes crime victims who sought shelter because their home was unsafe. This number reflects both single females (12) and their children (10).

Bridge Street Mission includes individuals who have received shelter after release from jail/prison, drug rehab, or homelessness. In previous reports, the number reported to this committee only reflected a small number of individuals who sought shelter in preparation for being transitioned into the “apartments” on the main level of the building. The number reflected should include all individuals who are housed at Bridge Street Mission, because without this amazing program in our community, 34 (per this month’s census) individuals would likely be unhoused in our community.

The Marathon County Jail includes individuals who identify as “homeless” or “unhoused” at the time of booking.

Daily Census

We are working hard to collaborate with partner organizations to get a handle on shelter capacity in Wausau. It’s important to know if we’re meeting or exceeding capacity. As of May 1st, The Salvation Army will be moving to a different sheltering model, only serving families, therefore, overall capacity for shelter will decrease to 30, provided by Good Shepherd Shelter with the ability to expand to 40 when temperatures fall below 15 degrees or above 90 degrees.

Daily Census Summary

On average, capacity was at 67 percent for the month of April. Catholic Charities was at or over their capacity a total of 20 days in the month of April.

Continued collaboration exists to ensure that the unhoused population have access to services.

We continue to work with our partner organizations to learn how many people are turned away each night. In addition to capacity, individuals are turned away for a variety of other reasons. The “turn-away” statistics for the month of April are as follows: Catholic Charities = 131

*It is important to note that Catholic Charities does reserve beds for individuals that are working. When individuals do not show for their bed saves, it results in the shelter not reaching their 30-bed capacity for the night (as shown in the graphed data)

In April the number of individuals needing a bed save due to employment was 12. The range was 5-9 people needing a bed per night, with a percentage of 17 to 30 percent of guests working the month of April, who were seeking shelter. The median number of people needing a bed/night was 7.

Outreach Update

In April, outreach resulted in 2 individuals receiving housing. 6 individuals met with Outreach Specialist and were given resources and assistance with housing applications, etc. Year to date, 48 individuals have been assisted into stable housing. 13 of the 48 have re-entered homelessness due to eviction or mediated agreement to vacate the property.

In addition to assisting with housing, we have also provided additional aid like transportation to medical/psychiatric appointments, bus passes, medication management, collaboration with St. Vincent DePaul, Catholic Charities, NCCAP, Social Services, Probation/Parole, and CW Solutions (FSET). Assistance was also provided with obtaining identification, setting individuals up with additional services through the ADRC as well as Community Treatment through NCHC. Case/Care Management is a service provided through both resources.

Collaboration with landlords and other non-profit agencies is on-going. Office hours at agencies throughout the city have proven beneficial in reaching the unhoused population.

Challenges and Opportunities

While we celebrate every time an unhoused individual achieves stable housing, the work does not and cannot end there. Generally, the unhoused population is vulnerable. Without someone providing ongoing support, management, intervention, accountability, and aid, the chances of remaining housed wane dramatically. In other words, our work can and will be undone in short order without systems to sustain the work. Thankfully, there are systems in place, but there are also gaps. Where gaps in case management exist, we are filling that void. We recognize, however, that our time and resources are limited in this regard. As a result, we are working to improve our understanding and relationship with

existing systems while also exploring solutions that not only bridge the gap to housing, but to the essential supports that will make housing permanent.

Success Story

I first learned of this 31-year-old male back in October of 2023 while collaborating with Jail Staff. Upon his release in November of 2023, he was placed in the SHS house (Supportive Housing through ATTIC Correctional services). As this individual successfully worked through this program, dealing with his AODA issues, he was on borrowed time to find housing as his stay at the SHS house would end on April 1. On March 13th, a case manager through Marathon County Elevate program reached out to me with a referral to start working with this individual. I met with him on April 1st. He was working and was very eager to get housed so he could work on getting visitation of his son. We viewed an apartment that day and we worked diligently on finding the funding to get him into his new apartment. He was successfully housed on April 10th! He is doing great! Still working the same job and potentially starting a second soon and is looking forward to seeing his son very soon.
