Management Representation Letter	

To the Honorable Mayor and City Council
City of Wausau, Wisconsin

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Wausau, Wisconsin (the "City") for the year ended December 31, 2017. The City's financial statements, including our report thereon dated June 27, 2018, are presented in a separate audit report document. Professional standards require that we provide you with the following information related to our audit.

OUR RESPONSIBILITIES UNDER U.S. GENERALLY ACCEPTED AUDITING STANDARDS, *GOVERNMENT AUDITING STANDARDS*, UNIFORM GUIDANCE AND *STATE SINGLE AUDIT GUIDELINES*

As stated in our engagement letter, our responsibility, as described by professional standards, is to express opinions about whether the financial statements are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on major federal and state programs in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with Uniform Guidance and the *State Single Audit Guidelines*.

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants. However, providing an opinion on compliance with those provisions is not an objective of our audit. Also in accordance with Uniform Guidance and the *State Single Audit Guidelines*, we examined, on a test basis, evidence about the City's compliance with the types of compliance requirements described in the "U.S. Office of Management and Budget (OMB) Compliance Supplement" and the *State Single Audit Guidelines* applicable to each of its major federal and state programs for the purpose of expressing an opinion on the City's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the City's compliance with those requirements.

PLANNED SCOPE AND TIMING OF THE AUDIT

We performed the audit according to the planned scope and timing previously communicated to you in our correspondence about planning matters.

SIGNIFICANT AUDIT FINDINGS

Consideration of Internal Control

FINANCIAL STATEMENTS

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control. Our report on internal control over financial reporting and on compliance and other matters is presented in the report on Federal and State Awards.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exist when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

FEDERAL AND STATE AWARDS

In planning and performing our audit of compliance for each major federal and state program, we considered the City's internal control over compliance (internal control) as a basis for designing audit procedures for the purpose of expressing our opinion on compliance requirements that could have a direct and material effect on each of the City's major federal and state programs for the year ended December 31, 2017, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control. Our report on internal control over compliance is presented in the report on Federal and State Awards.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that noncompliance of the City's major federal or state award programs will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2017. We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. To the best of our knowledge, all significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates included in the financial statements were:

- ▶ Management's estimate of the other postemployment benefits is based on an actuarial report. We evaluated the key factors and assumptions used to develop the other postemployment benefits in determining that it is reasonable in relation to the financial statements taken as a whole.
- ▶ Management's estimate of the depreciable life of the capital assets is based upon analysis of the expected useful life of the capital assets. We evaluated the key factors and assumptions and the consistency in these factors and assumptions used to develop the depreciable life in determining that it is reasonable in relation to the financial statements taken as a whole.
- ▶ Management's estimate of the fair value of the investments is based on ending market values as of December 31, 2017 as reported by the investment managers. We evaluated the key factors and assumptions used in valuing the investments in determining that they are reasonable in relation to the financial statements taken as a whole.
- ▶ Management's estimate of accumulated sick leave is based upon analysis of the employees sick leave balance. We evaluated the key factors and assumptions and the consistency in these factors and assumptions used to develop the accumulated sick leave liability in determining that it is reasonable in relation to the financial statements taken as a whole.
- ▶ Management estimated an allowance for uncollectible accounts for accounts receivable outstanding. These estimates are based upon management's knowledge or, and past experience with the outstanding balances. We evaluated the key factors and assumptions used to develop this estimate in determining that it is reasonable in relation to the financial statements taken as a whole.
- ▶ Management's estimate of the incurred, but not reported (IBNR) insurance reserves are based on actuarial projections of the expected cost of the ultimate settlement and administration of claims. We evaluated the key factors and assumptions used to develop the reserves in determining that it is reasonable in relation to the financial statements taken as a whole.
- ▶ Management's estimate of the net pension liability (asset) and related deferred outflows/inflows of resources is based on information received from the Wisconsin Retirement System. We evaluated the key factors and assumptions used to develop the net pension liability (asset) and related deferred outflows/inflows of resources in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. Copies of the audit adjustments are available from management. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 27, 2018. The management representation letter follows this communication.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and, to the best of our knowledge, our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the management's discussion and analysis, the budgetary comparison schedules and the schedules relating to pensions and other postemployment benefits, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplementary information, which accompanies the financial statements but is not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory and statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Restriction on Use

This information is intended solely for the information and use of the City Council, and management of the City of Wausau and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely,

Certified Public Accountants

Wausau, Wisconsin

New Accounting Standard

Accounting and Reporting for Leases

In June 2017, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases* which establishes a single model for lease accounting and revises reporting requirements.

Lease accounting is required when a government contracts to use another entity's equipment, building, or other nonfinancial assets for a specific period of time. Under the new guidance, a lease asset and a lease liability are recorded in the government-wide and proprietary financial statements for this contract. The lease liability is calculated by including the following: fixed payments, variable payments, interest rate, purchase options, residual value guarantees, and termination or extension options. The lease liability is discounted and is amortized over the lease term. The lease asset is calculated by starting with the lease liability amount and adjusting for incentives and other costs and is amortized over the shorter of the lease term or the useful life of the underlying asset. The lease asset is reported in the financial statements as an intangible right to use asset, rather than a capital asset under current guidance. Footnote disclosures including lease assets by asset class and related accumulated amortization and future minimum payments among other details are required under the new Statement.

When the government is leasing one of its assets to another entity, a lease receivable and deferred inflow of resources related to the lease receivable is recorded. The lease receivable is calculated similar to the lease asset described above. The lease receivable is discounted and is amortized over the lease term. The deferred inflow of resources is calculated by starting with the lease receivable and adjusting for incentives and other payments. The deferred inflow would be recognized as an inflow of resources in a systematic and rational manner over the lease term.

Some contracts include a nonlease component such as maintenance services. The government will need to allocate the contract cost between the lease component and the nonlease component, unless it is not practicable to do so. If it is not practicable, the entire contract should be treated as a lease.

This new standard is effective for fiscal years beginning after December 15, 2019. Early adoption is encouraged by GASB. We recommend the Village review the new standard, gather all lease contracts, and identify the terms and conditions of each contract, noting the lease term, all payments, and options in order to properly determine the value of each lease. The Village should also review contracts that have both lease and nonlease components to determine if a price allocation is practicable.
