				Description	Excavate water lateral and replace from interior of house out to city curb stop. Remove 2 sections of city side walk and haul away and dispose of. Provide concrete breaking, removing, and patching in the basement. Provide and install new 1" poly water service line from city curb stop into home. Rework all interior water piping as needed to complete and install new 1" ball valves before and after the water meter per code. Provide and install new 4" PVC sewer from city curb and tie into the house in the basement. Install new 2" foam board insulation over the piping under side walk area per owners request. Back fill all trenching and compact back to curb stop. Put road base in area for two side walk patched and compact. These two sections of concrete are to be poured back in spring when the weather is appropriate.

				We will be replacing the sewer lateral from the house out to the city main. We will be pipe bursting and will be pulling a new copper water line with the sewer. The new water line will go all the way to the city water main and we will also excavate in the boulevard to install a new curb stop for the city. We will not remove any sidewalk and there is no curb and gutter on this portion of S 8th Ave.
